

TROUBLESHOOTING YOUR WIRELESS CONNECTION

Before your call please follow these steps completely in the order listed below.

- 1) **Reboot Your Radio:** Unplug, wait a full 30 seconds, plug back in.

NOTE: Unplug according to the picture below, NOT where you plug into the wall or power strip (except Motorola)

- 2) **Reboot Your Router*** (If you have one) : Unplug at the router, wait a full 30 seconds, plug back in.
- 3) **Reboot Your Computer.**

Majority of problems will be resolved with a radio reset!

* See backside for wireless router disclaimer.
