

Enter Work Orders

PROGRAM NAME: WOENTR
MENU OPTION TITLE: Enter Work Orders
MAIN MODULE: W.O. PROCESSING
HELP KEY ACTIVE: YES

PROGRAM OVERVIEW

This program allows you to create Work Orders. Before you run this program, you need to make sure that the part number you want to create a work order for has been marked as manufactured and not purchased in {INPRTGUT}. Also, make sure that the routers and bills of materials are correct. This information can be found in {WOTEMPLT} and {INENTBOM}.

PROGRAM OPERATION

PARTNM: Enter the part number you want to create the Work Order for.

TARGET DATE: Date the work orders need to be completed by.
